Past, present, future.....

Several years before H&F Services, Inc. filed its official documents to become incorporation, the foundation for a successful business had already been poured.

Wayne Hughes and Don Flageolle created a strong partnership where their skills and experience complimented each other. Achieving a strong client base was the first and foremost goal for H&F Services.

Through competitive pricing, guaranteed craftsmanship, integrity and consistency a strong repeat client base was built.

H&F Services, Inc. continues to strive for excellence in every construction project both small and large.

Many things have changed over the past 10-years, yet one thing has and will continue to remain the same—**customer satisfaction**.

Thank you and God Bless!
